Miss Carey Scores Splendid Success in Her Honolulu Debut

Announcement that Miss Sadie Carey, young coloratura soprano and former Maui girl, will render a recital in the Territorial Building on June 29 proved welcome news to all music lovers on Maui and to those who knew her while she lived on the Valley Isle. Last week she gave a recital at the Elks' Home in Honolulu which was a splendid success and of which Arthur A. Greene, musical critic for The Advertiser said:

"Prophecy is a dangerous business and far from my metier but it would seem not a very daring thing to predict a real career for Miss Sadie Carey. Her debut at the Elks' club at Waikeiki last night was a triumph which should go far toward inspiring that unquestionably talented young singer through the trying ordeal which must be undergone if one reach the true heights of artistry.

"She is amply endowed as to voice, she has a most useful handmaiden in the matter of personality and the tutoring she has so far received establishes beyond cavil that she is potentially an artist who should 'arrive' brilliantly when Italy and the masters have given her what they have to give.

"Her voice has an unmistakable coloratura quality, its volume and range are exceptional in so young a singer and her shadings are accurate. She was heard to best advantage in Sanderson's delightful pastiel 'The Valley of Laughter' and to prove her versatility she gave Ardit's florid 'Il Piacere' and the familiar 'Good Bye' of Tosti quite in the professional manner.

"The cello numbers by Miss Dorothy Pasmore presented that rarely fine virtuosa in her most appealing mood. It is difficult to restrain enthusiasm touching the work of Mrs. Ralph Fishbourne, the accompanist. Unobtrusively beautiful was her playing. It amounted to thorough musicianship."

Can Your Car Stop?

ANY automobile is able to stop, but this fact doesn't mean that all automobiles are in a safe condition.

If your brakes are severely worn they will not hold your car for an emergency stop as they should. And emergencies are the only times when your brakes really count.

Because John-Manville Non-Burn Asbestos brake lining is made of carefully selected material it will stop your car properly and maintain its efficiency long after ordinary lining has worn to a dangerous condition.
